Modern Collectible Tins (Modern Collectible Tins: Identification & Values)

Synopsis

Collecting antique tins has been a popular hobby for decades. With prices soaring up to \$100.00 or more for many older tins, they soon were priced over many collectors' budgets. Modern tins, those more recently available and easy to find, are every bit as collectible, not to mention colorful, fun, and affordable to everyone. Linda McPherson has compiled a second edition of Modern Collectible Tins. With more than 800 colorful photographs, this value guide features hundreds of advertising tins from food products to Crayola Crayons. Tins included are mostly from the last 20 years, but a few go as far back as the 1960s. Many new photographs and categories have been added. There are more figural tins with sections on buildings, banks, miniature lunch-boxes, Roly Polys, vehicles, and much more. This handy guide provides essential information for collectors regarding product name, size, and current collector value. Once opened collectors may not be able to put the lid back on Modern Collectible Tins, Second Edition!

Book Information

Customer Reviews

BEAUTIFUL FULL COLOR PICTURES. LOTS OF NEWER TINS WHICH HAVE STARTED TO APPRECIATE IN VALUE. A GREAT SOURCE OF INFO FOR BEGINNERS OR FOR VALUE-MINDED COLLECTORS. NOT MANY OLDER TINS, HOWEVER, SO IF YOU ARE COLLECTING TINS TWENTY YEARS OLD OR OLDER, YOU MAY WANT TO LOOK AT SOME

OTHER REFERENCE SOURCES.

A beautiful 152 page, 8 1/2 x 11" softbound book containing more than 500, huge, sharp, beautiful full color photos. Some background information is included. Mostly a delightful picture-price guide ('98 pricing). Main topics range from breakfast cereals, candy, beverages, cookies and cakes to pet products, snacks, misc. non-food tins. A pleasure to view and enjoy the life-like tins. Superb photos and reproductions. Collectors will surely enjoy owning this book.

I just got the book yesterday. I was wondering if the many tins I have collected since the 70's were worth anything and never knew how to go about finding out. When I came across this book, I ordered it on the spot! Am I glad I did! I had no idea that the tins I have were worth that much! I love the color pics! The tins in this book are NOT antiques, just advertising tins (from the 60's and up?) that I picked up for 25 cents to a dollar at yard sales. I hope the author updates this book every few years. I intend to keep this book in my car as a reference, in case I spot any more tins at the flea markets and yard sales! It's worth buying this book for that reason alone!

This book gives great descriptions and detailed pictures of the new collectible tins of the new era. The colored pictures are of vivid detail and are a delight for the collector who wants to review the contents of this fine work often. I would hope that the author is considering expanding this fine work to other tins that are out there.

Love this book. I had the later second in the series book first. I wanted to see what was in this first issue. I am very happy with it and it was shipped fast. thanks

Love this book, a GREAT book for any modern collectible tin collector. I wish the author would come out with second edition.
