# Understanding Human Development (2nd Edition)

## Synopsis

For undergraduate courses in Lifespan Development and Human Development An interdisciplinary approach with an emphasis on culture and family Using an interdisciplinary approach which emphasizes culture and family, Understanding Human Development challenges students to understand development from a broader perspective. Students draw on their own experiences as they weigh the research and ideas presented in the text. Looking for additional resources to help you understand the material and succeed in this course?

MyDevelopmentLab contains study tools such as flashcards, self tests, videos, as well as MyVirtualChild which allows you to raise your own virtual child from birth through age 18 and monitor the results. Want to view an interview with co-author, Wendy Dunn? Click here: [www.youtube.com/pearsonpsych](http://www.youtube.com/pearsonpsych) Want to learn more about MyVirtualChild? ## Customer Reviews

Being a senior psychology student, this book was mostly review for me but I needed it for my Developmental Psychology Class. It covers the development of a human physically, emotionally, and psychologically from zygote to death. The price was great, I got it for \$28.00 used but you will be missing out on the virtual child program that is included in the new, unused text. I didn't need this

program for my class but it would've been an interesting and engaging supplement. Some aspects that are unique to this text are the explanations of how each developmental stage affects an individual physically, psychologically, and emotionally. Overall a good buy.

Book was bought for a course in college. Honestly never read it as the instructor and class was easy to follow without this book. If your instructor provides good lecture notes you can skip this entirely and still get an A.

This a great book on over-all human development. I continue to use it in my other courses for my Counseling degree. It was very helpful.

Interesting

The book arrived promptly, it is in OK CONDITION. The reason I say OK is because I also purchased another book the same day and the other book is in GREAT condition. This book 'Understanding Human Development' has some highlighting and minor markings. The highlighting is not a whole lot and it's mainly at the beginning of the book, it doesn't bother me too much but I don't sell my books back because I like to do a lot of writing and highlighting meaning that the less of this there is the more of MY own notes and highlighting there will be at the end of the semester, I would give it 3 stars if it was not for the fact that I saved like \$40 compared to buying it used at local bookstore. IT'S OK AND NOT BAD ENOUGH TO RETURN-- OVERALL: SATISFIED

I needed this book for my class, it came in handy.

The book is in excellent condition and I have no complain about this book ; nevertheless, my school changed book to third edition after I purchased second edition just to make me mad. Thank you for your sympathy.

Prompt delivery. Great price!
