# My Mom Has Multiple Sclerosis: Gail Explains MS To Kids

## Synopsis

Multiple Sclerosis affects 2.5 million people worldwide. The majority are diagnosed during their twenties or thirties. Thus, parenting with Multiple Sclerosis is common. Gail explains Multiple Sclerosis using terms kids can understand. Gail's story promotes family involvement in every day activities, and reinforces maintaining a positive attitude no matter the circumstances.

## Customer Reviews

It was okay. I felt the words could've been larger compared to the size of the page. After all, it's for kids, right? As a mom with MS, I think it could've covered more about this disease in less space. All in all, it's a cute book and my daughter will enjoy it.

Great book for kids of parents with multiple sclerosis. Love the use of an animal and cute pictures to attract children

Great book to help explain MS to kids
