# Teaching In K-12 Schools: A Reflective Action Approach (5th Edition)

## Synopsis

Are you looking for an engaging and accessible resource to support your understanding of classroom instruction? This authors of this textÂ provide you withÂ engaging narrative that bringsÂ K-12Â classrooms to life. A reflective planning model introduced in the beginning of the text helpsÂ you make theÂ important connection between planning and addressing curriculum standards.Â In addition to reflective teaching, this edition explores classroom management, diversity, standards, curriculum and lesson planning, active and authentic learning, technology in education, assessment, and working in the school community.Â Because this edition also pays specific attention toÂ professional standards (INTASC, curriculum standards, and Praxis II)Â you will gain confidence as you prepare for a career in teaching.

## Customer Reviews

Expensive textbooks are one of my pet peeves. I had to have this book for a class I am taking so I bought it here for less than the school bookstore. It shipped promptly and was in great shape. The seller packaged it sufficiently to arrive in time and in great shape. I would have given it five stars but because of how expensive textbooks are, I gave it 4 in protest, nothing against the seller : )

I'm reading this for one of my education classes and it is such an eye-opener, at least for beginning teachers. It really puts into perspective a lot of things. I haven't finished reading it yet but I've already learned so much in the first few chapters! I will definitely be implementing a lot of these

ideas in my own class.

This book was used to help prep for the Praxis; however, it didn't prep for the NV Praxis which is the one I had to take. Which instructor would have chose something that would have helped more

Reasonably priced...I was very happy that this book came in a timely fashion. I'd ordered from another company and got the wrong book...
