I found this to be very interesting story with some very good facts that I think should help many others young or older who may be either scared of people like this story shared or make fun of these types of people! So, I would recommend this for the very young to the senior citizen. And feel this needs a five star rating too. I received this ebook for free and in return for being able to read it and learn a bit about these sort of people I am leaving an honest review! Very good job author and illustrator! By Angela

I like how it describes how Alejandro, Jose's older brother is acting strangely and how Jose is feeling. It illustrates clearly how the illness is seen by people and how loved ones feel about it too. A

very hard experience to go through by family members, It shows that love and family support as well as friends are key to a full recovery.

My thanks for this well informed BEAUTIFUL story. People must educate themselves and know everyone has feelings and people like this are NOT CRAZY!

Good story for grades 1-6. My Sister, Then and Now by Virginia Kroll is better, grades K-6.

A lot of words on one page
