Social Science Research: A Cross Section Of Journal Articles For Discussion & Evaluation

Synopsis

• This new edition gives students valuable practice in reading and evaluating research. All major methods of research are illustrated, including qualitative research, content/document analysis, survey research, observational research, experimental research, and program evaluation. • The articles deal with contemporary topics that will hold your students' attention. • The lines in each article are sequentially numbered. This allows easy reference to specific parts of the articles during classroom discussions. • Factual Questions at the end of each article encourage students to read for methodological and substantive points. • The Answer Key provides answers to the Factual Questions. The line numbers where the answers can be found are included, making the key easy to use. • The Questions for Discussion at the end of each article address broad issues of research design and overall research quality. • Ideal for homework assignments followed by classroom discussions at the next class meeting.

Customer Reviews

The delivery was fast. I bought it online because its a book required for my PSY240 class. it is a lot cheaper than campus and i couldn't find it anywhere. however, the price to rent it at my college campus was the same to what i payed to buy it online, Obviously i am not happy with the price but its needed for my homework, and surprisingly the articles are not too boring, they're pretty interesting.

Good

This was the exact book I needed for my class and for a far better price than I would have paid at the college book store so super find!

This was a textbook for my behavioral science class. It's full of interesting various articles. It got the job done.

Awesome
