Customer Reviews

The content of the book is informative and the format is good. The thing that I didn't like is that it has a perforated pages for the binding so after turning the pages they will eventually fall out which some have already done so I won't be able to resell it.

Didn't get access code so it's useless

Psychological mumbo-jumbo...these are not effective study skills for the average person. I did not find the methods outlined in this book to be realistic or useful at all.

Some of the pages are loose. And book was a little bent up! But overall, it works for a rental.

I didn't really use this book, but towards the end of the book it was missing pages!

Helpful book for those who have trouble studying

Exactly as described!
