## Customer Reviews

This is a neat little "code book" for civilians. It's a compact, inexpensive and grammatically complete translator of colloquial english into four digit chunks of raw thought and emotion. It's for parents, lovers, coworkers, buddies and other strangers who need to keep in touch in an increasingly chaotic and balkanized world. It's a uniquely american collision of yankee ingenuity, silicon valley magic, and berkley birkenstocks. It's not a guy thing. It's not a chick thing. It's a kool human thing.
