# Top Trails: Yosemite: Must-Do Hikes For Everyone (Top Trails: Must-Do Hikes)

## Synopsis

Jeffrey Schaffer has selected 46 'must-do' Yosemite hikes. Whether you're looking for a scenic stroll, a full-day adventure, or even a spectacular backpacking trip, you'll find it here. And with at-a-glance information for each hike, visitors can determine which hikes are most suitable to their skills, schedules, and preferences. Books in the affordable and easy-to-use Top Trails series feature elevation profiles, detailed maps, driving directions, and 'don't get lost' trail milestones. Innovative trail-feature charts give information on which trails are child-friendly; which allow horses; where to see giant sequoias, waterfalls, lakes, wildflowers, and autumn colors; which trips have the best photo opportunities; and which have camping, running, or biking opportunities.

## Customer Reviews

Wilderness Press originally conceived of the 'Top Trails' series as a set of hiking guides to the best trails in an area. This purpose sets these volumes apart from typical hiking guides which tend to fall into two categories: comprehensive guides to all trails in a region, or descriptions of short day hiking opportunities in an area. The idea was to give visitors to a region quick access to the best hiking and to facilitate ease of use. Perhaps no area of California needs a 'Top Trails' guide as much as Yosemite and very few authors are as qualified to write one as Jeffrey Schaffer. This book is divided into seven chapters: one for each region of the park. Each chapter lists 5 to 8 hikes ranging in distance from the 1/2 mile walk at Bridalveil Falls to a 33 mile excursion among the High Sierra Camps. Obviously, some of these trails are more suitable for backpacking, a feature that

distinguishes this book from others in the 'Top Trails' series. All the great hikes are included. Readers will find route descriptions for Half Dome, the Tuolumne Grove of Sequoias (my favorite grove in the park), Clouds Rest, Hetch Hetchy Reservoir, Glacier Point, and many more. In all, there are 45 trails and routes described here. What makes this book so good are the standard features found in other 'Top Trails' guides and the expert commentary of Schaffer. Each chapter begins with an overview of the region, a trails summary page listing distance, difficulty, and some highlights of the trails, followed by detailed trail descriptions and carefully drawn maps. Schaffer is one of the top cartographers in the west and his maps are second to none.
