Iron Frontier: The Discovery And Early Development Of Minnesota's Three Ranges (Minnesota Historical Society Publications)

Synopsis

David A. Walker tells the story of the opening of the last iron-ore frontier in the United States on the Vermilion, Mesabi, and Cuyuna ranges of Minnesota--the nation's largest ore deposits. Walker explores the formative years from the 1880s to the early 1900s in the development of the state's mining industry, the iron men it produced, the new towns it spawned, and the railroads it built to transport the new-found wealth to growing ports on Lake Superior. Drawing on manuscripts, newspaper accounts, and business and financial records, Walker's study provides an economic history of an industry whose dimensions reached far beyond the borders of Minnesota.

Very interesting book . My wife's family were early pioneers in Ely, and this book provided a lot of answers.

Best book on the IRON RANGE that I have read yet!
