## Synopsis

Have You Lost Your Love Life? THIS IS A LARGE PRINT BOOK: If you don't have any love life, because you lost your hardness, then now is the time to get it back. Don't think you have lost it for good. In this book, I will show you how you can become the man you once were. There is no need to worry, stress, or be ashamed of what has happened to you. It does not matter if you have lost confidence in yourself and now feel embarrassed or fearful of what your partner might think. But you have to take action now. They say, "If you don't use it, you lose it." • Do You Know Why It Happened? Be aware that your hardness problem is not likely psychological, very few men have this problem. The cause of your hardness is linked to your physical makeup, the foods you eat, the drugs you use, the illnesses you have, and the exercise you don't do. But all of this can change with the information I give you. What Can You Do About This? Losing your love making ability does not happen all of a sudden, it happens slowly over time. You can turn it around, but you have to be motivated to do it. There are many reasons for your inability to get hard. But with the information provide in this e-book you will discover the nutritional and natural ways to get your hardness back. What Will You Have To Do? There are certain areas that you need to concentration on. You will need to get your body into an alkaline condition, you will have to eat the right nutrition, you will need to improve your cardiovascular system, you will have to use the right nutrients to increase your nitric oxide release and you will have to do some special exercises. I have all this information for you. Your lover can only wait so long, so don't make them wait longer than necessary.

## Customer Reviews

Great information for us guys to have sitting on the book shelf. At first I was timid about leaving this book out to where others could see it because at 37 I shouldn't be having hardness issues and it is a bit embarrassing. But nothing is more embarrassing than not being able to maintain and perform. This book is a bit outdated and some of the info and recipes can and should be tweaked (in my nonprofessional experience) and if you can literally look past the misprints and editing mistakes, you will find that this read is beneficial in more ways than what the title implies.
