## Customer Reviews

If you are planning on racing an Ironman in the coming year, I would go so far as to say you have to buy this book. It will probably be the best investment you will make helping you accomplish your athletic goals and allowing you to have more fun along the way. I've raced 2 Ironmans, a Half

Ironman, and 5 marathons over the past 3 years and I still go back and re-read certain chapters of BelronFit. I even take it with me to my races, it's that good. First of all, Don Fink is one of the most experienced and accomplished coaches in triathlon today. His approach, advice, and training plans have worked for countless athletes at all levels (from beginner to elite). I wouldn't follow a training philosophy or plan if it were not proven. My time and goals are too important to me. BelronFit is an exceptional read and resource. Very well written. What's remarkable about the book is that there is something there for everyone. If your goal is to finish your first Ironman or to qualify for Kona, I believe you will benefit from reading this book. Triathlon can be a complicated sport and the book goes into appropriate detail but not overly so. I think the reason I continue to go back to the book is that the philosophy, tips and advice to training and racing are sound - almost fundamental truths. Don not only explains exactly what you need to do day by day, week by week (laid out in your training plan), he clearly explains his coaching philosophy so that you understand exactly why you are doing certain workouts during the different phases of training. What's interesting about Don and perhaps one of the reasons why he has been such a successful coach is his background. He became an elite triathlete while managing a successful and demanding career on Wall Street.
