Welcome in the Law of Attraction world. This book contains tested and proven steps to use the Law of Attraction to improve both your financial status and your health. Only released last 2006, the Secret Law of Attraction has been making people rich and healthy for several years. The world's wealthiest live by these rules and make it a point to watch their thoughts and feelings. We live in a world that has taught us some harsh but unnecessary truths about life. The older generations have told us that money is only meant for those who cheat and steal. Honest millions take years to cultivate and earn through back-breaking work. We have also been taught that our health is prone to millions of outside variables that could go wrong at any time. We have been exposed to the notion that we have to pay the highest amounts to have the healthiest of lifestyles. This book proof that these "truths" are merely superstitious beliefs left by a misguided generation that has been blind to a simple truth that has been bring immense wealth and prosperity to a select few. Today, this simple truth now finds its way to your hands. The knowledge you will find in this book will help you overcome the difficulties of life by introducing ideas and practices that will change the way you think about health and money. Customer Reviews

I always believe that what the mind will think and focus onto, it will be achieved. This is same with the law of attraction, and I will always love to read books with this topic. After searching for books to read, this book came up to my search, and so I downloaded it. And after reading the book, as expected I have learned a lot about law of attraction. What are the things that I need to do to achieve my goals, and what are the things that I should focus on to. I enjoyed reading the book, and it was a great read.

This is a book that tells you "like attracts like." It's also obviously not been professionally edited. You

can find better and more thorough information for free on the internet. Some of the information is either blatantly wrong, or poorly thought through. For instance, he says you can not help or hurt people with positive or negative thoughts, nor can you be effected by other people's thoughts. This is untrue. I would implore the author to look up the lesser known universal law of intention. There is nothing really wrong with this book. Which is why I gave it two stars. It's just not a very thorough resource. Obviously trying to make a buck off of "the secret".

In law of attraction we see a major principle behind it that involves your expectation. You should have the right kind of expectations if you want attract money. For instance, if you are poor and want to attract wealth, you should start vibrating achievement if you want wealth to be manifested in your life. Your reality is nothing but your level of expectations; this could be described as the vibrational frequency within which you operate.

The body follows the mind! This is something I have always believed and now try to perfect in my daily life. Just thinking something won't get you results but will set off a chain reaction of actions and atmospheres to get to the goal. I love reading books like this that explain further the importance of affirmations, right thinking, etc.

I've always been fascinated with the idea of manifestation. This was a short read but nonetheless a great tool for the average person to understand the practice. I personally was introduced to some great new ideas and I've learned of some practices that challenged what I've always known about success and abundance. Recommended read!

Thanks to the author for such a useful book. I learned how to use the law of attraction to improve my financial situation and my health. The book describes the only proven steps and recommendations. The book is written and easily understood, I read it very quickly. I recommend this book.

This book explains what is the law of attraction, how it works and why it's so effective. I liked especially the section about the process of attraction and about how to get more money. The author has engaging writing style and I feel that his tips will help me to achieve my goals.

Everyone needs this book to stay positive and keep yourself having a great life. This book is a little out there for me but I do feel like a lot of great information is shared. If you can sort of ignore the

methods to which they claim to have received the information then its much easier to swallow.
