Customer Reviews

I was looking for positions specifically for the wedge since I own that. This book has a few positions for the wedge but most are just random positions that don't apply to the wedge. Nothing really new or ground breaking either.

Great Book... we learned how to use our wedge and ramp. We have had the most amazing love making sessions... I will never have flat sex again.....thanks..... buy the book you will not be sorry.....

Every man needs to read with his partner...love how it says they must play in the yard, before they

play on the porch, before they play in the HOUSE...LMAO....

Interesting. Hubby used a few "techniques" on me and I loved it. Trust me, amazing. However, you have to get a wedge for these to work unless you want to be held up all the time, which can be very uncomfortable. I ordered a wedge so we can do these. I wish I had known that before buying this book. There are a few that are not actual sex positions, but more for oral and only A FEW do not require a wedge.

I read a lot of reviews on this book and decided not to get it last year based on the negative vibe. More recently, I've bought a Liberator Wedge+Ramp combo and another as an engagement present for close friends after having wild success with mine, and decided to say, what the hell, after hearing rave reviews from my pals who'd come up with some great ideas on how to use theirs that I hadn't even imagined. All I can say is: WOW. So many great ideas, text and pictures aren't coy or lame, leaves no guesswork to the imagination. I'm very glad I took the chance on this company and this book. More Liberator purchases are in my future, what an unexpectedly great way to make something already fun even better. Take a chance!

I bought this for my girlfriend and I, she is normally against too much exploration, but with the explanations and methods in this book we have had a wonderful private relationship and are closer than ever. Even without the "Liberator Wedge" these are excellent tips and tricks you and your significant other will enjoy!

really helped us out allot my girl has back problems and this helped to relive allot of pressure from her back and helped her allot

It's mildly inspiring, if you're visually oriented. Otherwise, the positions are the same, just applied to the specific pillows. If you have their line of assistive pillows, you could pick a different position guide and apply those techniques to the pillows. This sounded good; but, I could have had better luck following the advice I already gave you.
