Sex: Make Her SCREAM - Last Longer, Come Harder, And Be The Best She's Ever Had

Synopsis

Do you want stronger, more intense orgasms? AND to make each encounter leave her whimpering for more at the same time? Do you want to learn to last longer, and be the best she's ever had in bed? What if you just want to make her scream your name? Learn exactly how.... and more in this book! SEX is kind of like pizza - even when it's bad, it's still pretty good. But what if you could make it so that each pizza you had was like it was created in the heart of rustic Italy? That's what this book does for sex. The knowledge here will take your sexual encounters - be it with your wife, girlfriend, or just a random hookup - to the next level, and make it so that she can't help but beg for more, time after time. What will you learn from a certified sex coach? * How females conceptualize sex differently from men - and how you can take advantage of it. * The best ways to stay harder and last longer for her. * The seven best positions for her pleasure - and yours. * Giving (and receiving) multiple orgasms. * How to get her to come around to anal pleasures. * An introduction to kink, fantasies, and sex toys - the more the merrier! * How to have her screaming your name and begging for more, every time. Intrigued yet? Wouldn't it be nice to become "that guy" that women talk about? To know that you have just given her an experience she will never forget, and never feel insecure about your performance again? All that with the best orgasms you've ever had, and the longest, most intense sessions... and send her into spasms? Read this book to decode the female body and be the beast in bed that you know she wants. Stay harder, last longer, satisfy her... and come as hard as you ever have in your life. Customer Reviews

After 16 years of marriage and 2 kids, my sex life was almost nonexistent. At the end of the day, all we wanted to do is sleep!! My husband and I read this book, and found new ideas to keep our love life fresh and interesting. I love the fact that it is written from a man's perspective. My husband is learning some very new and interesting techniques!! Instead of macho man, he is learning to take it slow and easy until the time is right. After reading this book, my husband now knows exactly what I want and how to do it! If you need a little help in the bedroom, this is definitely the book for you!!

(This is my husband's review because he's the one who read the book) This was a great book! It should be noted that it is written to men. If you take the time and effort to please your lady then your part in sex will be more fulfilling and enjoyable. The cover could have been different and a bit more tasteful and a little more editing could have been involved as well. This book is quite concise. It touched on topics, but didn't go on and on about the same thing. It was basically a book of tips, that had a lot of common sense behind them. Some of the suggestions were unconventional, which allows you to think about different ways to change up your sex life. The book is set up nicely allowing you to understand her wants better. The chapter list breaks it down by timing of actions; way before sex happens (how she thinks), to foreplay, on to physical touch, then sex, and even after the deed is done. I would suggest this book to someone who is wanting to spice up their sex life, a couple who is struggling, or just someone who is curious about females. Overall, I liked the book. I learned some new things even though I've been intimate with my wife for quite some time. I really did make her scream after reading this.

This book is great for both men and women. I learned about how to keep relationships together and the different ways between men and women. Amber Cole gives great advice and talks about five love languages. It gives great detail on how to treat a woman special. This book gives men great

advice if they need help in this area. I would recommend this book to anyone that needs help in this area.

Now ordinarily I don't usually go looking for books on how to enhance my sexual performance, let alone download them to my Kindle. However lately in my psychology class. We have been discussing the different psychological problems that can occur for both men and women if they feel their sexual prowess is not adequate. My professor discussed the fact that there were all sorts of books available that are spinoffs of the, sutra, and are supposed to teach men and women how to enhance their sex life, and while I do not wholeheartedly endorse the author's statement that sex is like a pizza (I have always considered it more of an exploration of the body and soul, but that's just my personal perspective). I do however agree that sex is an art, and one should strive to perfect it to the best of their ability. And after reading this book I can honestly say that there is some solid advice contained within these 85 pages that will definitely help to improve a man's self-confidence in being able to bring their partner to the ultimate climax and provide them with pleasure on a level that is akin to summoning Mount Everest. Whether you are with a long-term partner or someone that you have recently met. This book will help to make sure beyond a shadow of a doubt that your next exploration of body and soul will be a highly enlightening experience for both you and your partner mind sure didn't have any complaints.

Amber Cole has written a book for men to read, and learn by. This is definitely a book that made my husband think about what he does, and possibly what he could be doing better. I think he's fine just like he is! However, we decided to read this book together, and we both agreed there are some extra things we could be trying for a more passionate love session. I think anyone would benefit, both men and women, from reading this book. I do recommend this read.

Sex is an important part of any committed relationship, but sometimes we need to spice things up. Men know what they want and aren't afraid to ask for it, but some women are. This book helps your man warm up to you a bit more and give you what you need in the relationship. There are some positions in this book that I've never thought of before that just blow my mind. This is great to look over with your partner to help reach new levels in your relationship.

Interesting to read. Very informative and actually helpful! It has a few tips in it that can make life a little simpler for those who are novices and for those that want some new ideas on how to heat

things up!

This was the first eBook I ever read by author Amber Cole and I have to say, I was very pleasantly surprised! She is an excellent writer. This book is so much more than just a sensual read, it is engaging, informative and it keeps you gripped wanting to turn the next page to find out what she's going to talk about next, or where she's headed on the subject at hand. I recommend that every straight male in the world who wants to not only become a better lover, but to also gain a deeper understanding about us women, in general, READ THIS EBOOK!
