This informative guide, written by Peter Black, M.D., Ph.D. (along with medical writer Sharon Cloud Hogan) is a welcome addition to the resources that are available for the brain tumor community. Dr. Black, an eminent neurosurgeon, brain tumor researcher, and professor at Harvard Medical School, offers his expertise about a variety of topics that affect brain tumor patients and their loved ones in an easy to understand format. The book is divided into five parts: An Introduction to Brain Tumors, Types of Brain Tumors, Living with a Brain Tumor, Treatment Options, and Recovery. Chapter titles include "What a Brain Tumor Means for Me and My Family," "Choosing Supportive Care," "Working Toward Wellness," and "Reasons for Hope," in addition to the expected sections about specific tumor types, chemotherapy, surgery and radiation treatment. Issues that affect adults with brain tumors, as well as specific pediatric concerns, are clearly explained.
