## Customer Reviews

Excellent book for parents too. I wish I would have read this book earlier when my teen were younger. I have ADHD boys and the information on interaction would have been very helpful. Best

take away advice was these teens have so much negative interaction in their lives, school, work, home, sports team etc. Everyone is critical of their behavior, no wonder some develop quite a chip on their shoulder. We are trying to adopt positive interaction in simple ways. For instance, behavior that is expected putting dish in sink, doing homework on time, obeying rules like curfew etc., thank them for complying it gives them positive interactions. Yes the behavior is expected, but these teens need positive reinforcement over and over.

Delivery and condition of product as expected.
