Helping College Students: Developing Essential Support Skills For Student Affairs Practice

Synopsis

There is a need for a book that fully examines the specific and unique awareness, knowledge, and skills that are necessary for student affairs and other practitioners to be effective and ethical in their helping, counseling, and advising roles. This book addresses the core assumptions and underlying beliefs that impact the helping, counseling, and advising roles and skills that are central to higher education. It synthesizes and integrates information from traditional counseling therapy texts and offers examples of how to utilize such skills within student affairs. Written for faculty members and professionals.

Customer Reviews

This book provides a perfect insight into the critical skills necessary to meet the ACPA and NASPA core competency of Helping! Without a doubt this is one of my favorite books for my graduate program!

Helped me tremendously during school due to a crisis that hit campus the same semester. Without that I'd have found less utility in this book. Still, immensely helpful as a resource book.

very helpful info for me in my work at a community college working with students with disabilities. Lots of great tips and helps.

This was a book for one of my classes and it to be great! it was in perfect condition- even used!
