Hiding in Hip Hop: Confessions of a Down Low Brother in the Entertainment Industry by Terrance Dean is an intimate account of the author's experience as an undercover brother. As a child, Dean was forced to cope with issues surrounding drugs, abandonment, AIDS, and molestation. As an adult, those issues still plagued him, but he was able to add sexuality to his list of problems. His fulfillment in having sex with other men would not have been so huge had he not been a part of the entertainment business. But because he was flooded with images of masculinity and saw how the rich and famous treated those who were openly gay, he contrived an artificial existence as a heterosexual man ultimately hiding in Hip Hop. Dean was not the typical down-low guy though. In actuality, he loathed the way some down-low men lied to their women. He also was not too keen on playing second fiddle to men who wanted to have their cake and eat it too. Dean wanted much more. He wanted real love. And he wanted to know how he could attain that love and still be accepted in a business that was all about images and facades. Through his desires to love freely, dealing with his estranged family, and attempting to find a way to overcome his conflict with his sexual preference, Dean started Men's Empowerment where he invited his peers to discuss the stressors that came with celebrity and/or power. Men's Empowerment became a seed flourishing into other groups that helped communities in New York and ultimately helped Dean do some serious soul searching. Hiding in Hip Hop was a decent read. It garnered so much attention that by the time I read it, I was so intrigued by the celebrities Dean was not naming and almost missed the point of his book.
