Customer Reviews

You have to pay for this service to even see what movies and tv shows they offer! I checked other reviews and found they were not favorable either so I decided not to subscribe.

This is an advertisement. No value here. I expected some information on how to download movies to the Kindle Fire.

imovies. That's all it tells you to do, don't bother wasting your money. Need more words, tra la la la la

Waste of money all it does is take you to a site where you have to pay an additional-fee of either \$39.95 for two 2 years - 34.95 for 3 months or 29.95 for one month. to register and you have to have a credit card.

OMG, what a waste of digital space.... Not worth even the one star minimum rating.I won't go into the details on this, as many reviews have already accomplished that. Merely want to add my vote to the "don't bother" camp.This was an accidental purchase....by the time I caught it, it was well past the 7 days gives us to return an ebook. (Sigh)

It didn't work. It did not give me any information on how to use it. No very user friendly in my opinion

This is a rip-off and not worth it. The book is just an advertisement for a paid web service. Not worth a rating just a warning.

?? I don't know what I'm doing. I want to download movies. not write a review for an app I downloaded to get movies..
