## Customer Reviews

The Princeton Review publishes a number of college search-related books, including the "Complete Book of Colleges" and this one. This book is essentially a distilled version of the "Complete Book", and frankly a lot more useful (but people completely new to the college-shopping process, definitely check that out too). "The Best 381 Colleges (2017 Edition)" (872 pages including 26 pages of ads) is similar to last year's edition. After holding the number of best colleges at 380 last year (remember this book started off in 1992 with the best 250, where have the years gone!), this year there are 3 new "best" colleges: Manhattan College, San Diego State University, and University of New Haven. Two schools from last year's list were dropped. In the Introduction, the editor reminds us that this is the 25th edition of this book, that in 1992 they surveyed 30,000 students and now 134,000, and that in 1992 they did 120 surveys per campus, and now 375. There are over 60 fun-to-browse top 20 lists of best/worst, such as "Most Beautiful Campus", "Students Study the Most", "Party Schools", and "Most Politically Active Students" (my daughter's school was in the top 10 ranked school on that list, and now has dropped out altogether, so yes these rankings change from year to year, although not sure how exactly these rankings come about, as her school's drop seems pretty steep).
